Ideation Phase

Define the Problem Statements

Date	13 october 2026
Team ID	6ab4a4d8a238dc999eb4a480
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Incident record users	ensure consistent and accurate data entry for effective triage, routing, and resolution	relying solely on user awareness and manual checks can lead to incomplete, inconsistent, or incorrect data being submitted	this can impact reporting accuracy, SLA compliance, and overall service quality	Incidents may not contain complete and valid information before submission
PS-2	Incident record users	enforce conditional field behavior and validation directly at the user interface level	required conditions may not be met and incorrect data may be submitted	Incident records need to meet defined business rules before they are submitted	data quality and consistency across the platform may be affected
